# ROLLER TRAY TRUNKS.

WARRANTED { THE BEST, AND  
WILL NOT  
GET OUT  
OF ORDER.

To buy one of this style is a guarantee that you will get the most convenient and the most substantial Trunk made, as most of the ordinary competing Trunks are made for a price, without regard for durability.

For full explanation of the Roller Tray, see pages 2 and 3.

We also make a specialty of STRONG and LIGHT-WEIGHT SAMPLE TRUNKS and CASES of the most Improved Styles.

## *BEWARE OF .....IMITATION!!*

Our prices on all goods shown in this catalogue are as low as it is possible to make them with good material and workmanship. Any goods offered at a lower price must therefore be imitations and inferior. When we make a lower grade of goods they are designated by letters, instead of numbers, and as they are unlike our regular stock we do not recommend them, except to be as good as such competing goods.

Trunk A, Imitation, similar to No. 17—Page 71.

FULL PARTICULARS  
OF THE WORKING OF THE PATENTED  
**ROLLER-TRAY TRUNK.**

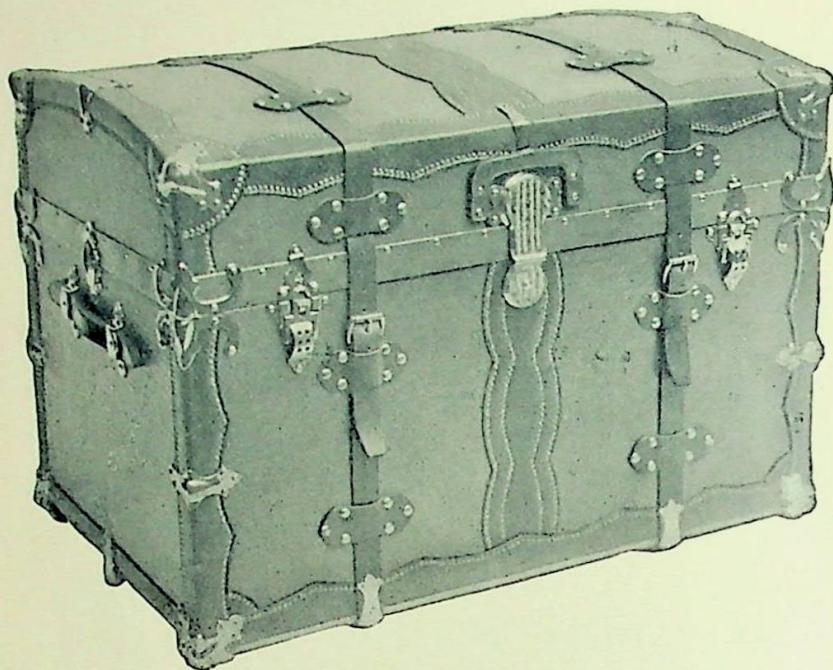

**Figure 1** shows the Trunk open, with the tray rolled half-way back into the top. In this position you can get into any part of the tray, or into the bottom of the Trunk.

**Figure 2** shows the Trunk with the tray rolled all the way back. In this position you can pack or unpack this Trunk with as much ease as if there was no tray in it at all.

**Figure 3** shows the tray rolled back and front till tilted over, which opens up the Trunk as Figure 2. With this movement there is no lifting at all.

The arrangements and fixtures are simple and durable, and warranted not to get out of order. With this style tray you need not have any fear of the Trunk-top falling while you are packing or unpacking the Trunk, and when you consider the fact that the Roller-Tray Trunk can be used just as you would the ordinary Trunk, taking the tray out if desired, and yet so arranged as to avoid lifting a heavy tray, besides being all made superior to the ordinary Trunk, you should not fail to see this line before making your selection.

 For illustration, see cut above and on page 2.
